EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Woodson on 9/15/04.

The application has been amended as follows:

2. In claim 1, line 4, please delete the word "signal" from between the phrases "interrupt request" and "to the CPU".
3. In claim 1, line 12, please replace the phrase "interrupt request signal" with the phrase -- same interrupt request--.
4. In claim 1, line 17, please replace the phrase "interrupt request signal" with the phrase -- same interrupt request--.
5. In claim 1, line 21, please replace the phrase "interrupt request signal" with the phrase -- same interrupt request--.
6. In claim 3, line 4, please delete the word "signal" from between the phrases "interrupt request" and "was detected".
7. In claim 4, line 3, please delete the word "signal" from between the phrases "interrupt request" and "is provided".
8. In claim 7, line 7, please add the word "same" before the phrase "interrupt request".

9. In claim 7, line 10, please add the word "same" before the phrase "interrupt request".
10. In claim 7, line 12, please add the word "same" before the phrase "interrupt request".
11. In claim 10, line 3, please add the word "same" before the phrase "interrupt request".
12. In claim 11, line 10, please add the word "same" before the phrase "interrupt request".
13. In claim 11, line 14, please add the word "same" before the phrase "interrupt request".
14. In claim 11, line 18, please add the word "same" before the phrase "interrupt request".
15. In claim 17, line 9, please add the word "same" before the phrase "interrupt request".
16. In claim 17, line 12, please add the word "same" before the phrase "interrupt request".
17. In claim 20, line 3, please add the word "same" before the phrase "interrupt request".

18. The following is an examiner's statement of reasons for allowance: The Applicant's arguments regarding which interrupt request is verified are persuasive (see p.9-10 of the present amendment). The prior art of record has taught a system that detected an interrupt request, stored the register context, and then verified that the interrupt request signal was still valid before continuing on with interrupt processing (see Miu et al.). However, the prior art of record had not taught wherein the verification of the interrupt request was the verification of the same interrupt request originally detected. Thus, the above amendments to the claims overcome the rejection that had been made using the Miu et al. reference.

19. Furthermore, the prior art of record has taught the detection of interrupt request signal level changes, and then after some delay verifying that it is still at the previous level, with no determination of the source of the interrupt request. However, the prior art of record has not taught the detection of an interrupt request, the subsequent detection if the same interrupt request

is still applied from the same interrupt request source after some delay, with the register context being saved during the delay. Therefore, in light of the above amendments, the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

20. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barry J. O'Brien whose telephone number is (703) 305-5864. After October 12th, 2004, the examiner can be reached at (571) 272-4171. The examiner can normally be reached on Mon.-Fri. 6:30am-4:00pm, with the exception of first Friday of every bi-week.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Chan can be reached at (703) 305-9712, or at (571) 272-4162 on or after October 12th, 2004. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
